

Ashwath John

Software Developer

ashwathjohnkottayil@gmail.com | +91 7676144495 | Bengaluru, India | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Entry-level Software Developer and BCA graduate (CGPA 9.45/10) with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and RESTful APIs. Strong foundation in Data Structures, OOP, and SDLC/Agile practices, with practical experience across frontend, backend, and relational/NoSQL databases. Quick to ramp up on new systems and tools, with a track record of collaborating effectively across teams, communicating clearly with stakeholders, and taking the initiative to deliver working features on time. Seeking to join Texas Instruments' Software Development Engineer Development Program to contribute to scalable, high-quality software solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL, PHP, C
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, React Hooks, State Management
- **Backend:** Node.js, Express.js, RESTful API Development, CRUD Operations, Middleware, Authentication
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Tools & Practices:** Git, GitHub, Postman, AWS (basic), CI/CD, Agile, SDLC, Debugging, OOP, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern

06/2025 – 07/2025

Zephyr Technologies

Mangaluru

- Built and integrated 5+ responsive UI modules and RESTful APIs using React.js, JavaScript, HTML5, and CSS3, ensuring consistent performance across desktop and mobile.
- Developed end-to-end features across the full stack (React.js frontend, Node.js/Express.js backend) supporting CRUD operations against relational and NoSQL databases.
- Built reusable React components connected to backend REST endpoints, handling asynchronous data flows for dynamic frontend functionality.
- Collaborated with developers in Agile sprints and code reviews, translating business requirements into working features using Git/GitHub for version control.

PROJECTS

CoreSync – AI-Powered SaaS Platform

React.js, Node.js, Express.js, PostgreSQL, OpenAI API, Clerk

- Built a full-stack SaaS platform integrating 5+ AI-powered productivity tools via the OpenAI API.
- Designed and implemented RESTful APIs for authentication (Clerk), content management, and CRUD-based workflows.
- Managed PostgreSQL database schema and queries to support application data; deployed via Git-based CI/CD on Vercel.

Biteables – Food Ordering Web Application

React.js, Node.js, Express.js, MongoDB, Stripe

- Developed a full-stack food ordering application covering the complete CRUD-based ordering workflow, from UI to database.
- Built backend REST APIs for authentication, cart management, and order processing using Node.js, Express.js, and MongoDB.
- Integrated Stripe payment gateway for secure transactions and debugged issues across the stack for reliable performance.

Sentiment Analysis System

Python, Machine Learning, NLP, Scikit-learn

- Developed an ML solution to classify 1,000+ customer reviews into positive, negative, and neutral categories, achieving 85%+ accuracy.
- Applied NLP preprocessing (tokenization, vectorization, feature engineering) and automated sentiment prediction workflows.

EDUCATION

BCA – Bachelor of Computer Application

07/2023 – 05/2026

Dr NSAM First Grade College Nitte (Nitte Deemed to be University)

Karkala

- CGPA: 9.45/10 — Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Software Engineering, Web Technologies

PUC – Pre University Examination (PCMC)

07/2021 – 04/2023

Jnanodaya Bethany PU College

Nelyadi

- Grade: 89%
