PROFESSIONAL SUMMARY

Software Developer and BCA graduate with hands-on experience building full-stack web applications using React.js, Node.js, PostgreSQL, and MongoDB. Comfortable across the stack, from database schema design to responsive frontend state management, with a track record of turning ambiguous requirements into working, maintainable features.

SKILLS

JavaScript • TypeScript • SQL • Python • React.js • Tailwind CSS • Bootstrap CSS • Responsive Design • Node.js • Express.js • REST APIs • JWT Authentication • MongoDB • PostgreSQL • Git • GitHub • Vercel • Stripe API • OpenAI API • Full-Stack Web Development • Debugging • RESTful API Development • Postman • CI/CD • Debugging & Performance Optimization

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern, Zephyr Technologies

06/2025 – 07/2025 | Mangaluru

<https://biteables.onrender.com>

- Completed structured full-stack development training through technical instruction, assignments, and hands-on application development.
- Independently developed Biteables, an end-to-end MERN food-delivery application as the primary project during the program.
- Built frontend and backend functionality covering authentication, menu browsing, cart management, order workflows, administrative functionality, database operations, and REST APIs.

PROJECTS

ShopSaathi - Billing & Credit Management System

Tech Stack: React.js | JavaScript | Tailwind CSS | REST APIs

<https://shopsaathi-red.vercel.app>

- Conceived and independently developed a full-stack application based on operational problems observed in small shops.
- Built billing, product and inventory management, customer management, and customer credit tracking functionality.
- Implemented sales and transaction history, dashboard summaries, reports, and analytics.

Parish Management System

Tech Stack: React.js | Node.js | Express.js | MongoDB | Vercel | Cloudinary

<https://stsebastianchurchshirady.vercel.app>

- Independently designed and developed a full-stack management platform based on needs observed at a real church.
- Built modules for church events, news, gallery content, and other church information.
- Developed a JWT-protected admin dashboard enabling authorized church staff to manage website content.

CoreSync - AI Powered SaaS Platform

Tech Stack: React.js | Node.js | Express.js | PostgreSQL | OpenAI API | Clerk | Cloudinary | Vercel

<https://coresync-ten.vercel.app>

- Built an AI-powered SaaS application while following a structured course/tutorial to gain practical experience with modern SaaS technologies.
- Developed React-based frontend functionality and integrated AI content generation using the OpenAI API.
- Worked with Clerk authentication, PostgreSQL, usage-limit functionality, and Stripe billing.

EDUCATION

BCA - Bachelor of Computer Application

07/2023 – 05/2026 | Karkala

Dr NSAM First Grade College Nitte, (Nitte Deemed to be University)

Relevant Coursework: Linux, Software Engineering, Software Development, Computer Networks

CGPA: 9.45 /10

PUC- Pre University Examination, Jnanodaya Bethany PU College

07/2021 – 04/2023 | Nelyadi

PCMC

Grade: 89%

LANGUAGES

English • Kannada • Malayalam • Hindi • Tamil
